The Traffic Safety Division believes that personal instruction is of great benefit to students but recognizes that there are some situations that make it extremely difficult for a student to attend a local driver education course due to distance, availability, schedule or extenuating circumstances. TSD may, in its discretion, grant permission for a student to enroll in a correspondence course only if the student meets one of the two conditions set forth below (18.20.3.8 NMAC).

***Please note that applicants must provide all information requested. Incomplete applications cannot be processed and will be returned pursuant to the review procedure below.***
